Type
Build Pipeline View
Shows the jobs in a build pipeline view. The complete pipeline of jobs that a version propagates through are shown as a row in the view.
List View
Shows items in a simple list format. You can choose which jobs are to be displayed in which view.

Configure
Layout
Based on upstream/downstream relationship
This layout mode derives the pipeline structure based on the upstream/downstream trigger relationshi
jobs. This is the only out-of-the-box supported layout mode, but is open for extension.
Upstream / downstream config
Select your first job
Select Initial Job
